HOW WE SUPPORT PATIENTS

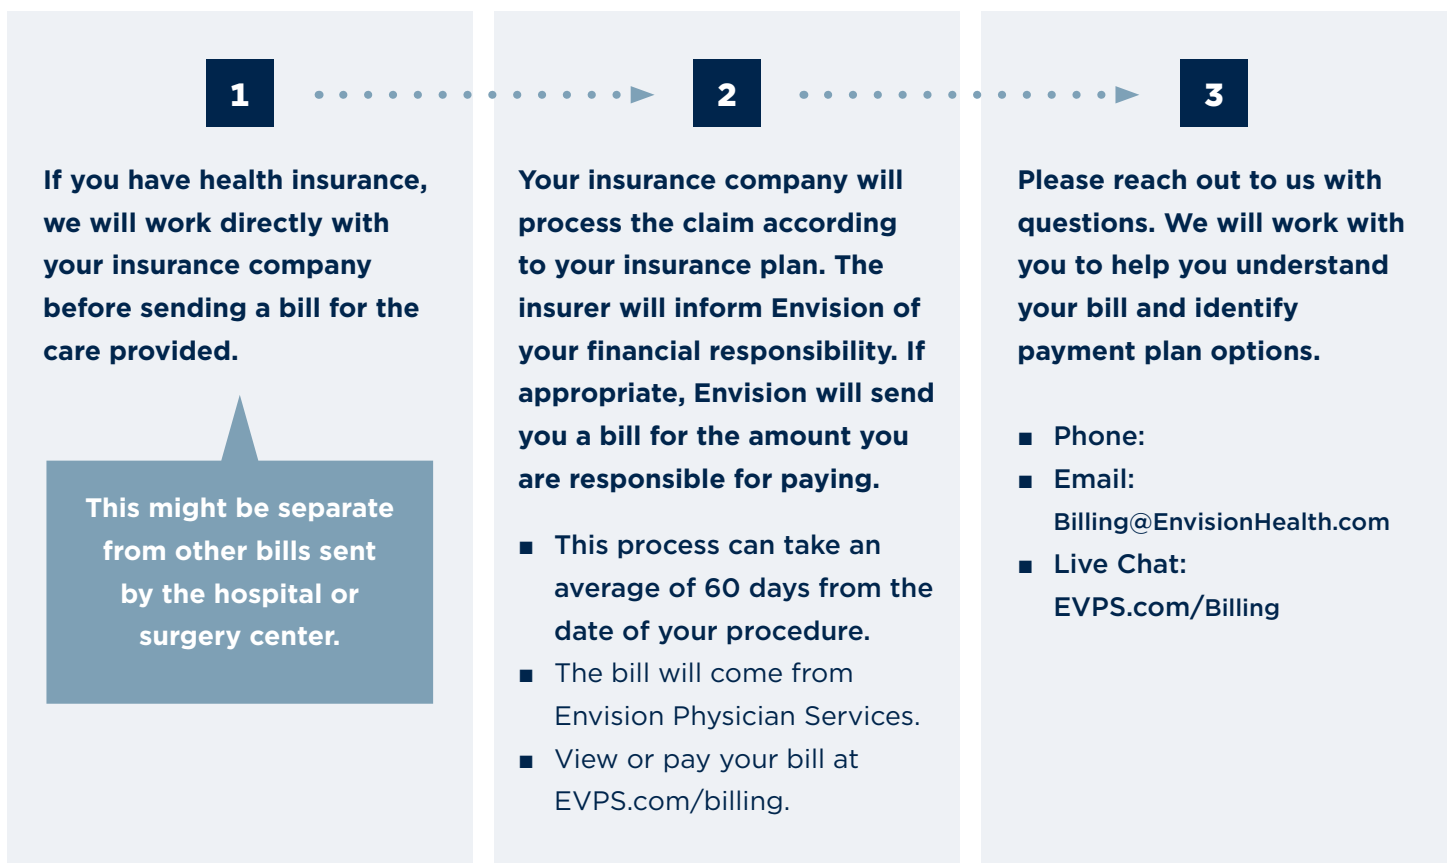

Envision delivers high-quality, compassionate care to all patients. Our patient support representatives are available to assist you through the billing process.

Before Your Procedure – We know price transparency is important and having a full understanding of costs is helpful. Please contact us directly with any questions prior to your procedure.

After Your Procedure – Our patient support representatives can answer questions about your statement, explain charges and offer payment arrangements where appropriate.

BILLING

Unless you pre-paid or the procedure is fully covered by your health insurance company, here is our process to file the claim with your insurer and, if appropriate, send a bill for services provided:

In some instances, our clinicians might be out of network with your insurance company. If this is the case, we will work with your insurer to determine what you might owe. Envision will not balance bill you.

If you don't have insurance, we will bill you directly. For those who may face financial difficulty and need assistance, we will work with you to honor the policies of the hospital where you received care. Please reach out to us for more information.
